Hang in there!
I'll try to listen in to call too.

Also, wanted to let you know- Art Wake just called...he's back and got message from Tina from weekend...but as you know Tina is out. So he called me. He said he is generally available, would just need like a day to line out some child care stuff. Told him I'd relay to you and he's going to touch base w Dave Christiansen to see if there's any lab junk EUL needs.

Keep breathing!!

It's been hell trying to transition and catch up on resources right now, but making it up as we go along. I'm hoping to get the state and local folks resources down as well by eod. We're having to track them as well. Aghhh!
